re: Letter of Recommendation for Gregg Seaholm

To whom it may concern,

This letter is a professional recommendation for Gregg Seaholm. BCRA Principals have known Gregg Seaholm for over 16 years and had the pleasure of working with him on Design-build projects when he was in Tacoma. He has remained in close contact with many of the Principals at our firm.

The major benefit of working with Gregg is that he understood the intricacies of working within our Federal Design-Build program. Gregg lead Design-Build teams by managing all the components while bringing the experience and knowledge of the contractor to the project(s). By being a successful Design-build project, Gregg was able to manage project correctly thus saving BCRA time and money. Since a project can start construction before it is fully designed it was critical that Gregg maintain up to the minute communication with our team to ensure the project(s) stayed on scheduled; while working closely with the entire team, Gregg's strength of keeping complex project timelines on schedule was due to engaging that all parties can provide their expertise throughout the design and during the construction phase. Gregg made it a point to understanding local construction & costs thus providing a gratifying client experience.

It is for these reasons that I offer high recommendations for Gregg Seaholm without reservation.

Best regards,

JEFF BROWN, AIA, NCARB  
PRESIDENT & CEO
